Republican Guard Overthrown!

Oakland (API) Reliable sources report that President George Bush, heir to the Bush League fortune, surrendered to rebel forces under the command of Governor Bill Clinton. As rebel troops stormed the oval office, President Bush was reported to have fled the capital by helicopter.

Governor Clinton has reportedly claimed the Presidency and initiated a purge of Republican loyalists. Highly placed sources confirm that radical forces under the command of the new President are in control of Washington, D.C.

Witnesses to the overthrow claim that Mrs. Clinton, who was attired in a Little Rock Blue Frock with a detachable bonnet, was with the Governor as he assumed power. In an exclusive interview with the *World Headline News* Mr. Blackwell, a leading policy consultant, has assured us that Mrs. Clinton is sure to receive attention in his upcoming "list".

As a further harbinger of things to come, Socks the Cat was reportedly prowling for stray Republicans in the back alleys of Washington.

Alfred E. Newman Elected Pope Vows return to ancient traditions

Oakland (API) The Vatican announced today that Alfred E. Newman, from the United States, has been elected to the Papacy following the death of Pope Pius MCXVII. The new Pope has chosen the name Hugh Hefner I.

Pope Hugh Hefner I

Pope Hugh Hefner I, saying that *The Church* is in need of "renewal", has promised a change of direction. As hints of things to come, the new Pope is reported to have said, "I got wine, snack food [reportedly confessional wafers], and best of all, I got a bunch of Nuns that'll do anything I say! I just hope I don't have a problem with that Papal Infecundity stuff."

In related news, the new Pope is having the Sistine Chapel repainted with Vargas nudes, moving the Vatican to the Bahamas, and converting several Nevada Convents into brothels. Bishop Madonna has promised to "bare all" the new Pope's plans to the press in the near future. Church officials are reported to be "excited" over these actions.

Frivolous Libel Suit Filed Against World Headline News

The editor of the *World Headline News*, Mr. Mark Scott, has had a \$10,000,000 libel suit filed against him. The plaintiff in the court action, Mother Theresa, has claimed that, "irreparable harm has been done to both my professional reputation and public image".

Lawyers for the *News*, a highly respected news journal, state that no libel has occurred because, "Mom Theresa has no professional reputation and to even suggest that she has a public image is ludicrous. We stand by our story she is head of the Gambino crime family!". Editor Scott assures the loyal and intelligent readers of the *World Headline News* that, with the exception of those incidents resulting in extended stays in the Tijuana, Las Vegas, and Vatican prisons, his reputation as a honest journalist is spotless.

Attempts to settle out of court have not yet been successful. Editor Scott has stated, "If they think they can scare me off..., hey, where is the airport in this podunk town anyway?" A court date has not yet been set. In a related issue, Mother Theresa is rumored to be furious over the lack of support from the new Pope.

Scientist Questions Darwinian Evolution!

Dr. Mark Scott of the Children's Hospital Oakland Research Institute reports in today's *World Headline News* that mankind has evolved directly from an amber proteinaceous liquid known scientifically as *Greenus slimus*. Various theories exist as to its origin; however, the prevalent belief is that it was specially exported to earth by an intoxicatingly advanced civilization. Remnants of this liquid can still be found at the Fermentation Ponds National Park in Minnesota. Dr. Scott has received a twenty billion dollar, one year grant from the National Institutes of Health to study this fascinating finding.
