F A M O U S Investigator Accepts Position at Childrens Hospital Oakland Research Institute!

Arrival of New P.I. is Imminent!

Oakland (API) It was announced yesterday that Dr. Elvis Aron Presley has agreed to join the research staff of Children's Hospital Oakland Research Institute (CHORI). Dr. Presley, who prefers to go by *Elvis*, has been the personal physician to the Gratefully Dead since August of 1977.

Elvis announced his return to academia to the astonished breakfast patrons of Soul Brothers restaurant, most of whom were enjoying chicken and waffles. The return of *Elvis* was greeted with surprise, disbelief and incredulity. One chicken eating patron, Dr. Mark Scott (a distant relative of the Publisher of the highly respected *News*) expressed disbelief that Dr.

Presley could obtain independent funding since, "It's been 15 years since he's published anything original!". Others have said, "He ain't no hound dog in the laboratory".

According to informed sources, initial contact with *Elvis* (who claims to be age 29 and a resident of the USA--see file photo) was made in a Nashville barbershop by Dr. Sam Test, a member of the CHORI staff. Dr. Test had just had several drinks of hair tonic when he saw *Elvis* and invited him over for a "slurp". While *Elvis* sipped a Shirley Temple, Dr. Test successfully convinced him to speak with Dr. Lubin.

Following extensive negotiations with Dr. Lubin, *Elvis* agreed to a full-time Senior

Research position paying \$11.52/hr. While still under discussion, Dr. Lubin has reportedly promised *Elvis* the entire basement laboratory facilities at CHORI and an office in Trailer T-7 (the repository for other deadly serious investigators).

In announcing the successful recruitment of Dr. Presley, Dr. Lubin stated that, "The addition of Dr. Presley to the CHORI faculty is a coup unequalled by any other Institute of our size". Staff positions with *Elvis* are available and open auditions will be held soon.

In other CHORI News, Dr. Lubin announced the hiring of Dan Quayle as laboratory manager. Mr. Quayle cited his extensive experience as a top level manager as the reason for his hiring.

Quackers at the Oakland Estuary

Studies Indicate That Quack Abuse Is Increasing

Oakland (API) A recent study by the **Fowl Friends Society (FSS)** has reported an increase in fowl abuse. The study specifically cited an alarming rise in the number of quackers (street term for quack users).

While no concrete reason was found for the increase in quacking, the FSS believes that foreign fly-by-night quack distributors were responsible. When asked if these fowl agents came from Peking, the FSS ducked the question.

Jeanne Dixon Predicts Completion of CHORI Administration Tower!

In an apparent fit of lunacy, the normally accurate Jeanne Dixon predicted that the CHORI administration tower would actually reach completion! For more information call the *Psychic Hotline*, 1-990-666-2874.
