Mr. Dan Quayle

Quayle's Brain Examined !

Found to be Sharp As A Nail!

Oakland (WHN) Researchers from Children's Hospital Oakland Research Institute (CHORI) in Oakland, California announced today that contrary to public belief, former Vice President Dan Quayle does have a brain.

The study, funded by the *Quayle in 96 Committee*, demonstrated that not only does Mr. Quayle have a brain but that the Quayle brain is as sharp as a nail. While the medical researchers at CHORI admitted these findings will be viewed with skepticism by the general public, they have provided extensive radiologic evidence in support of their conclusions.

Mr. Quayle, upon hearing of the researchers report, was ecstatic and stated, "See! I told you I'm no pin head. I think this is great exposure and has hit the nail on the head as to my ability to be President. See you in 99!" Former President Bush agreed with Mr. Quayle and stated that his former VP "is as sharp as a 3-penny nail." Democrats are reported to be considering whether to raise the controversial "rust" issue with Mr. Quayle should he decide to run for any public office.

Medical Researchers Report That Cholesterol Is Good!

Oakland (WHN) Scientists at the Albany Medical College have published new findings that conclusively demonstrate the beneficial effects of cholesterol.

Drs. Harold Plantem and Barry M. Deep of the Albany Medical College of Mortuary Science report that high cholesterol consumption in males age 45 and older can have a stimulatory effect on the economy. Drs. Plantem and Deep's research indicates that cholesterol is a major fuel in the often neglected underground economy.

The studies authors report that removal of cholesterol from the adult male diet would result in significant cash flow blockage in the underground economy. Dr. Plantem concludes that, "Cash circulation is the heartbeat of America and this in turn is fueled by

What You Can Do About El Nino

The **World Headline News** is happy to provide these helpful hints on how to deal with the horrible *El Nino* problem currently afflicting the world!

- Remember, an ounce of prevention is worth a pound of cure! So, do as Nancy R. does, "Just say no"; or, if you must, use a prophylactic device (welded zippers!).....**
- If the above measures fails, consider adopting out *el nino*.**
- If local ordinances prevent free give-aways, read Dr. Spock's book on disciplining *el nino*.**
- If all else fails, hire a baby sitter and go have a stiff drink.**

*Only as a subscriber of the **World Headline News** can you get these helpful hints!*

cholesterol. A million more Americans would be out of work,but be alive..., if cholesterol was banned"

The American Medical Association agrees with Drs. Plantem and Deep and unequivocally states that, "Cholesterol is good for business."

After analyzing these findings President Clinton has instructed the USDA to give free cheese to all males over age 45. It is the Administrations belief that this will stimulate the American underground economy.
