## Journalistic Nose Smells Scandals Galore in East S.F. Chronicle Claims "Snotty Reporter Blows Oakland For Albania"

Jejco Photo

**Oakland (WHN)** After having faithfully served the East Bay for over six months, The **World Headline News** is leaving. As first announced in Issue 3 (February 22, 1993), the **World Headline News** is moving its corporate office from Oakland, California to Albany, New York.

The Publisher of the **News**, Mark Scott, stated that this difficult decision came after a series of successful lawsuits by such "**scandalous bums**" as Mother Theresa, Prince Charles, and Dan Quayle before the liberal judges of the San Francisco Federal Courts. Quoting Senator Jessie Helms (Issue 8, June 15, 1993) Editor Scott claims California is a center of "liberal perversity" which has made a mockery of the concept of a free press. In addition, Editor Scott states "...besides we've

exposed all the good stuff at CHORI (see **Nudity**, Issue 8, June 15, 1993). But I've heard that the eastern block (Albania) is full of corruption, greed, and nepotism so I actually have a chance of finding a real job that's suited to my innate talents."

Editor Scott also responded to the groundless accusations published in the *San Francisco Chronicle*, *Christian Science Monitor*, *New York Times*, and *The Vatican Today* that the **WHN** is fleeing from crowds of angry citizens carrying bags of feathers and buckets of tar. The **WHN** emphatically claims that at no time has any employee run in blind fear from irate, irrational, and degenerate read-

ers of the **WHN**. Indeed, Editor Scott claims, "I've got perfect vision.....and let me tell you, it's a good thing! I can see'em comin' from a long ways off. Oh, Oh-- gotta run!"

### Winner of WHN Fiat Contest Donates Cash Prize to the World Headline News Charities!

**Oakland (WHN)** Ms. Charis Wagner, winner of the highly popular "**FIAT Goes Boom**" contest has donated her six figure cash prize\* to the **World Headline News Charities**. The Honorable I. Rob M. All, Chairman of the **WHN Charities**, states that this money will be used to feed the poor of Albania. A large quantity (384,000 mg) of spam has already been purchased and is being sent to Dr. John Eaton, Far East Correspondent for the **WHN**, for distribution.

Photo by Mark Scott, Inc.

Ms. Wagner states that her generosity is part of an out of court settlement in the **Club Nude Scandal** (Issue 8, June 15, 1993) and in no way reflects any philanthropic tendency on her part. Further court imposed penalties on Ms. Wagner include working with Dr. Alexander H. Lucas. Appeals to the Supreme Court regarding this latter penalty are under way. Ms. Wagner's lawyer, Mr. Daddy Wagner, assures the **WHN** that he has sufficient evidence to prove that working for Dr. Lucas constitutes cruel and unusual punishment, a direct violation of the constitution.

### Gut Wrenching Experience for CHORI Investigator

Photo by Mark Scott, Inc.

**Oakland (WHN)** Dr. Sam Test recently set a **WHN** sports record by successfully drinking a beer while simultaneously sucking on 3 golf balls. Dr. Test's record has been recognized by the *Laverne and Shirley Sports Hall of Fame* of Milwaukee, Wisconsin. Because of the significance of this achievement, the *L&S Hall of Fame* has asked for Dr. Test's balls so that they can be enshrined in the Milwaukee museum.

Speaking from his hospital bed, following an emergency colonoscopy, Dr. Test informed the **WHN** that while quite exciting, this sport can be "a gut wrenching experience" and should only be done by trained professionals such as himself.

## Rat Abandons Ship...

### Makes More Room for Decent Human Beings!

for Kathleen Hogue Gonzalez, S.E.E. by *anonymous\**

*\*KHG did not meet the deadline for this edition of the WHN, thus a substitute columnist was found. KHG claims no responsibility for what follows...*

**Oakland (WHN)** The celebration continues over the news that Dr. Mark Scott, *a.k.a.* Dr. Rat, is leaving CHORI. Dr. Rat's history at Children's is a story of greed (have you ever seen how *MANY* cookies he takes at seminars), corruption (I would never leave my daughter alone with him!), sick humor (I need only say one word, *BAMBI*), and vile editorials (see **World Headline News**). So what can any of us say but, "Hurrah, Dr. Rat is leaving!"

However, as decent, fair minded individuals we must ask the question, "What effect will Dr. Rat's leaving have on CHORI?" The answer my friend is (*blowing in the wind?*) that life will be better for all of us. First, new lab space is being opened up to recruit a honest, moral, well-endowed (grant wise! I'm ashamed of you readers!) individual. Second, we won't have to suffer through any more tacky picnic advertising campaigns for what should be a very cultured (*Salmonella?*, ed.) affair. Third, less of us will have to receive the **World Headline News**. Lastly, we can turn our computer problems over to someone more competent (*e.g.*, "Bert, my SCSI chain, PRAM, RAM, system 7 enabler, and hard disk have all bombed! Could you come and fix it right *NOW!*").

Yes, I say that we are about to enter the Golden Era of CHORI. Thus, I would like to publically thank the Albany Medical Center for taking Dr. Rat off our hands. Now if we could only get rid of that Dr. Ωñ†™ (oopppls!).

*see related stories: Dr. Rat gets NIH grant! and CHORI puts out rat bait!*

"Hey Bert, my Word program is acting up again, could you reinstall it for me?"

## Banquet Celebrates Departure of Scientist

**Oakland (WHN)** A banquet was held in the new CHORI lunchroom to celebrate the departure of Dr. Mark Scott. Dr. Scott was feted by an overflow crowd of.... well somebody might have been there.....(*nah!*).

According to **WHN's** Social Affairs Correspondent, Ms. Emil E. Poste, no expense was too little. Chefs from around the world (most arriving

recently on unregistered ocean vessels) were forced to prepare the feast. The menu consisted of.... well we're not sure what the items were..... Ms. Poste states that a "soup-like substance" contained some noodle type things, while the meat (?) was very chewy and was reminiscent of tar. Further information regarding the banquet was not forth coming as Ms. Poste's stomach was busily being pumped.

*See related story--Ms. Emil E. Poste, noted gourmet, dies at age 34*

## ALIENS ABDUCT CHORI SCIENTIST! BRAINS TURNED TO MUSH!

by Samuel T. Test, M.D.

**Oakland (WHN)** Investigative reporters for the **World Headline News** have recently uncovered startling evidence that CHORI investigator Mark Scott, Ph.D. was abducted by ruthless aliens on March 5, 1993, transported to their space ship, and force fed unknown substances which culminated in the total liquefaction of his brains, which were subsequently replaced with hominy grits. It is assumed that the technology of the alien race was far in advance of ours, in that they were able to detect the presence of any cerebral matter in Dr. Scott to begin with. Traces of an unknown rocket fuel resembling Pepto

Bismol, along with a large letter "X" burned into the ground, were found at the site of the spaceship crater, near Mountain View Cemetery in Oakland, CA. Also found lying on the ground at the site was what appeared to be a cleanly severed Louisiana Hot that Dr. Scott was holding in his hand earlier in the day. When questioned, Dr. Scott could remember little of the incident, except that the aliens called each other by the names Sirach Gewran and Exal Scaul and kept muttering "Mars in it, mars in it." **WHN** believes that this incident explains the strange behavior of Dr. Scott over the past few months; we are still searching for an explanation of his behavior before that time.

## Surviving In The Far North! Science Provides New Ways to While-A-Way Those Winter Months

**Albania (WHN)** Scientists at the Albany Medical Center have recently discovered a means by which the monotony of the long Albanian winters can be conquered. In an exclusive report, **WHN** ace technology reporter Michael Jackson tries out the "Hibernation Chamber". Unfortunately Reporter Jackson will not file his report until the year 2013.

However, Inventors Drs. Rip V. Winkle and Ricardo Monteban state that using the chamber not only results in the complete rejuvenation of an individual, but also allows the user to miss 20 Albanian winters prior to their reawakening (in early spring). In an attempt to appeal to the California market, Drs. Winkle and Monteban said that tanning lamps will be installed in the *Hibernation Chamber* so that the patron will awake not only refreshed, but with a great tan as well. The California model will be sold as the "*You Looook Maaahvolous Hibernation Chamber*" and is expected to retail for \$1,738,613,995.99. The base price does not include the optional Yani Muzak System or the rose colored plexiglass shield. **WHN** Consumer Affairs Reporter P.T. Barnum says orders have already been placed by Shirley McClain, Ronald Reagan, NASA, and our own Mark and Wendy Scott.
