Albania Medical College Alopecia Clinic Sued for Malpractice!

Albania (WHN) County prosecutors today announced that Dr. Harold (Harry) Coif has been charged with the misdemeanor crime of "Conducting An Experiment Without A Ph.D." as a consequence of his experimental treatment of Mr. Ned Ander-Thal of Clifton Park, NY. Dr. Coif has practiced at the Albanian Medical College School of Alopecia since his 1992 graduation from the Hair Club For Men College of Medicine (HCMCM).

Sources close to the case report that Dr. Coif entered the operating room with the HCMCM Chief Resident (who is also a customer) and, over the next 22 hours, proceeded to transplant hair plugs from multiple synthetic hair pieces (reports indicate it was the William Shatner, not Patrick Stewart, model) into the body of the anesthetized Mr. Ander-Thal. Reportedly the attending anesthesiologist was not cognizant of

what was occurring.

In the most bizarre twist of this case, the apparent victim of this unauthorized medical experiment has refused to file charges and is reportedly quite content with his new hair. Mr. Ander-Thal is quoted by Dr. Coif's lawyers as saying, "It's groovy to have body hair again. The babes really love it!"

However, Prosecutors state that regardless of Mr. Ander-Thal's feelings, an unauthorized medical experiment was conducted and justice must be served. The prosecution is reportedly asking for the most severe penalty applicable to this

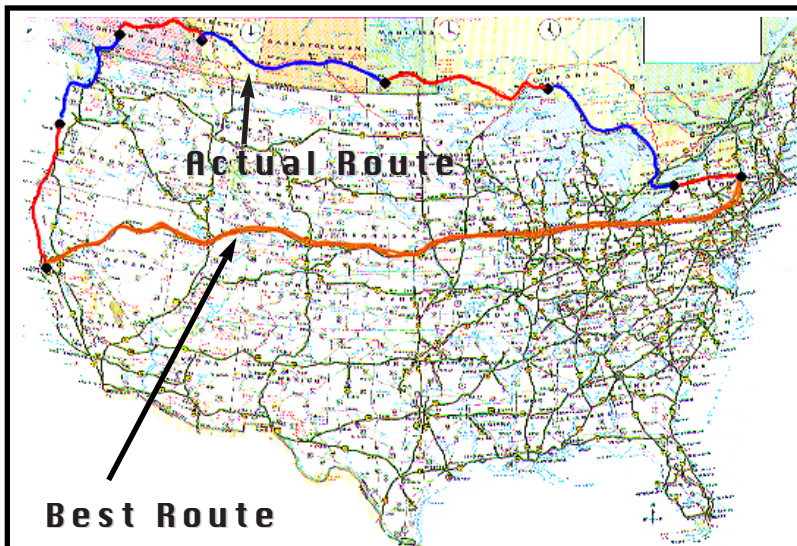

Before

After

case (i.e., actual employment of a Ph.D. in a Medical department).

Canada Mystified

Chilliwack, Kamloops, Medicine Hat, Moose Jaw, Thunder Bay, Wawa, and Niagara Mounties Baffled by THE RED BLUR!

Albania (WHN) The Royal Canadian Mounted Police (i.e., Mounties) expressed confusion over reports from throughout lower Canada of a speeding red blur. Initial reports of THE RED BLUR originated in Chilliwack, British Columbia and over the course of 4 days rapidly spread east through the bustling cities of Kamloops, Medicine Hat, Moose Jaw, Thunder Bay, Wawa, and Niagara.

Baffled as to the explanation/phenomena behind the THE RED BLUR sightings, the Mounties have resorted to consultations with noted parapsychologist Dr. Sigmoid Fried of the Wawa Institute of Weird Stuff. Dr. Fried indicates that these sightings are probably not real and that the Mounties are likely suffering from one of two potentially dangerous psychological states: 1) too much aged Canadian whiskey; or 2) A paranoid fear of communism. Other possible explanations for THE RED

BLUR have also been put forth and include: 3) A Communist Conspiracy aimed at undermining the Mounties, then the country, then north American, then the western hemisphere, and then the entire world; or 4) a speeding red Mazdarati from California.

Mountie Spokesperson Sergeant Preston states categorically that it is the official position of the Mounties, and Canada in general, that Theory No. 1 must be excluded because everybody knows you can't have too much good Canadian whiskey. Consequently only three possible explanations exist for THE RED BLUR phenomenon. While paranoid Canadians could be a possibility, the general feeling among the scientific community is that Canadians are much too simple minded to suffer from such a severe mental condition. In contrast, the threat of a communist conspiracy is being taken seriously by the Mounties who have contacted Dr. Ronald Reagan of the Anticommunist Conspiracy League United (ACLU). It is the professional opinion of Dr. Reagan and the ACLU that it is quite likely that "those pesky, godless commie bastards are behind it all!" Thus, a strong diplomatic protest has been made to the Albanian, Chinese, Russian, Ukrainian, Georgian, and Khazakistan Embassies. The final theory of a rapidly moving red mazdarati has been given little attention by the mounties because, as Canadian Mountie Traffic Patrolman Sergeant Dudley Doorite says, "No car could possibly go that fast, eh! Pass the whiskey and gravy, eh!"

Spurned Dinosaur Star Goes On Rampage Eats 43 People, 132 Cars, and Ignores 'No Loitering' Sign

Albania (WHN) Barney, the cute singing dinosaur star of the PBS television series, went berserk in New York City last Friday. During his rampage through Manhattan, Barney ate 78

An Angry Barney Attacks Critics

humans (only 43 were people, the rest were lawyers), ingested 132 taxis (for roughage) and ignored 'No Loitering' and 'Do Not Walk On Grass' signs!

ing on the grass.

Barney's Manager, Mr. Rogers, stated that Barney has recently been under tremendous stress following his surprise rejection for the lead role in the movie *Jurassic Park*. Mr Roger's is quoted as saying, "Golly, I thought his auditions were just so nice and sweet. I just think that Mr. Spielberg should reconsider Barney's potential as a serious dramatic actor. Why Barney's a regular Pat Boone." Mr. Spielberg stated that he was sorry for Barney's anguish but that "Barney just didn't compare to the runner-up for the part, Dino from the *Flintstones*, or the eventual star of the movie *Mr. Tyrone Rex*."

Noted Hollywood Psychobabolist Ms. Joyce Brothers told the **WHN** that Barney is suffering from a syndrome common to many of Hollywood's television actors. Ms. Bother stated that "Many television stars often revert to socially unacceptable behavior in an attempt to gain acceptance among the more

infamous movie actor crowd. Prime examples of this syndrome are disgusting movies made by otherwise socially responsible television stars, for example: *Kermit the Frog in The French Lieutenant's Frog* and *Lassie in Lassie Goes Rabid for Fift*."

Famous lawyer, and potential dinomeal, F. Lee Bailey has agreed to defend Barney against all charges in exchange for 90% of the gross movie, book, and talk show receipts.

Here Mousy, Mousy Award
- Ms. Jolyce Hardesty**
Medal of Honor For Service Beyond the Call of Duty
- Ms. Mary Ann Schott**
SETI Award

Trans Canadian Speeding Spree Ends In Tragedy!

Moose Jaw (WHN) "Wendy, I'll have another one of those there Moosehead beers if you please, eh".

The **WHN** is ashamed to announce that these fateful words lead to the death of an extremely rare Canadian Midget Moose. For in the time it took to sip the golden Molson, a midget moose darted in front of the speeding **WHN** Mazdarati and was, to the regret of this reporter, sent to moose heaven. Fortunately neither of the **WHN** staffers on board were injured nor was any damage done to the **WHN** Mazdarati (what's a Midget Moose weigh anyway....about 1/4 lb?)

see related story: *Rare Midget Moose Head On Display at WHN Corporate Offices*

In their inaugural year the **WHN Awards** have already aroused controversy by excluding several individuals from the 1993 awards list. As a result, Mother Theresa, The Reverend Billy Graham, Jessie Helms and Madonna have filed a \$57,163,783,492.00 class action suit in San Francisco against the **World Headline News**. Hillary Clinton from the law firm of Slick, Willy, Wesson, Oyle and Hillary II will be defending the **WHN** from this malicious lawsuit.
