## Citing California Screw Up, Florida Juice Board to Rename Certain Fruit Product!

*Ms. Anita Bryant Heading Fruit Task Force*

Orlando (WHN) Ms. Anita Bryant, famous Belle-of-the-South, was named Chair of the Florida Fruit Crisis Committee (FFCC). The FFCC was established in response to the recent "Juice" crisis in California. Ms. Bryant citing another "typical California screwup" declared that the states citrus growers had been irreparably harmed by the recent O.J. "Juice" Simpson scandal. Hence, to protect the reputation and continued vitality of this vital citrus component of the state's economy, Ms. Bryant's commission has been charged with renaming a "certain citrus fruit juice product". Hence, the use of "O.J.", "juice" as well as "fruit" is forbidden. Initial suggestions by Ms. Bryant's Fruit Crisis Committee include: Gods Nectar; Citrus Pulp; SOS (some orange stuff); SPAM II; and the Unpink Drink. The later is Ms. Bryant's favorite.

In addition to renaming the "certain fruit drink", Ms. Bryant is rumored to be resuming her other fruit campaign. This report is given credence by the naming of South Carolina Senator Jessie Helms as a co-chair of the Fruit Crisis Committee. Ms. Bryant has refused comment on this matter except to state, "The FFCC is simply trying to correct ALL the problems created by that OTHER fruit producing state."

**Exclusive WHN photo** of O.J. (a.k.a., The Juice) Simpson fleeing police along Interstate Highway 405. Defense experts claim these photos implicate other individuals in the murder of Nicole Simpson and in helping O.J. to elude police capture. The photo was obtained from a security camera located outside of Nicole Simpson's townhome.

## Did O.J. Act Alone?

**Famed Forensic Pathologist**

**Says 'NO!'**

Albania (WHN) As evidence continued to be gathered in the Nicole Simpson murder case, prosecution and defense experts were busy analyzing photos obtained by the WHN.

Defense lawyers have hired famous Albanian Medical College Pathologist Geraldo Gooden to examine the forensic evidence and the WHN photos. Following a couple of drinks with the defendant, Dr. Gooden closely examined all evidence (including our photos) and declared "O.J. is innocent of these heinous crimes; but other, more sinister, Simpsons may be involved!"

Prosecutors, while maintaining that O.J. Simpson is guilty, are also not ruling out the possibility of co-conspirators in the murders and the subsequent escape of O.J. from police. Police Lieutenant Kee Stone agrees with Dr. Gooden and has requested hair samples from two natives of Springfield.

## Famous Political Quotes of the 20th Century Test Your Political IQ in this WHN Quiz!

Simply match the phrase with the correct politician.

1. Neville Chamberlain
2. Richard M. Nixon
3. Ronald Reagan
4. George Bush
5. Bill Clinton
6. Howard Stern

- A. A balanced budget by 1984.
- B. There will be peace in our time.
- C. A stripper in every home.
- D. I'm no crook.
- E. No new taxes.
- F. Integrity and ethics in government.

1. B (50% credit for A); 2. D (50% credit for F or A); 3. A (50% credit for B); 4. E (50% credit for D); 5. F (50% credit for C); 6. C (-2 points for F)

### Albanian High Society! Digging In The Dirt:

A View From The Second Floor  
By WHN Society Columnist  
Wota Wanker

The recent addition of an obscure Orstralian scientist Tomb "I never drink" Yaitner marks the resumption of anthropological studies at Albany, under the direction (north) of Prof. JW Etkin. Dr. Yaitner, who, in his own words, is a legend in his own toilet, intends studying the iron age in human development. Dr Etkin has recently proposed that all red or brown coloured beverages must contain a certain proportion of iron to account for their distinctive colouration. This proposition has been vigorously supported by Dr. Ming-Wei "the human spectrophotometer" Qian. In collaboration with those notable experts on iron, Drs Scoot and Ma Honey, extensive trials have begun. Preliminary studies have established that *Limericks Irish Red Ale* has considerable iron content. Studies with *Ballentines* (Green Death), *Moose Head* (Essence of Liping) and *Molsen* (Scoot's secret artificial blood) beers have not been as successful. Nonetheless, these fearless scientist have decided to continue their studies, arguing that a sample group size of several hundred cases is simply not enough, and that the measurement of urinary iron is difficult. Prof Etkin's choice for the control non-coloured beverage, gin, has also caused some minor problems for one of the participants of the project. Dr. Yaitner loses all control of his bodily function by the second Martini, leading to claims of being a "one pot screamer" or a "short shooter" (you work it out) by the more seasoned Dr. Ma Honey. These problems aside, the authors of these studies are confident that their studies will be a significant contribution to science. At least this is what is being

said in the grant to fund the project. Contributions to this research will be gratefully accepted and can be directed to the cold room on level 2. Light the barbie!!

### World Headline News Endorses Howard Stern For Governor

Albania (WHN) The editorial staff of the **WHN** is proud to endorse radio celebrity Howard Stern for Governor of New York. Following extensive analysis of the platforms of the three major candidates, it is the opinion of the **WHN** that the only valid candidate for Governor is the Honorable Howard Stern.\*

\*The real reason for the **WHN** endorsing Mr. Stern is that we will do anything to get him off the radio.
